DETAILED ACTION

Allowable Subject Matter

1. Claims 8-12 are allowed.
2. The following is an examiner's statement of reasons for allowance: in reference to claim 8, the prior art searched and cited failed to teach or fairly suggest a method for measuring the dimensions of patterns formed on a sample on the basis of a line profile which is obtained from an image formed by the electrons emitted from the patterns on the samples scanned with electron beams having a step for the obtaining line profile of, detecting edges of the patterns according to a predetermined first edge position detecting method and calculating distances between the detected edges according to a predetermined first measuring method; and for said line profile, establishing a second edge position detecting method and a second measuring method and measuring the dimensions of patterns according to the established second edge position detecting method and second measuring method. The prior art failed to teach the said method in it's entirely. In reference to claim 10, the prior art failed to also teach or fairly suggest in it's entirely applicant's limitation of having a scanning electron microscope comprising a computer for measuring the dimensions of patterns formed on a sample on the basis of a line profile which is obtained from an image formed by the electrons

emitted from the patterns on the samples scanned with electron beams, wherein the computer is arranged to perform a plurality of edge position detecting methods and a plurality of measuring methods for calculating distances between detected edges; the computer detects, for the obtained line profile, edges of the patterns according to a predetermined first edge position detecting method and calculates distances between the detected edges according to a predetermined first measuring method; and the computer establishes, for said line profile, a second edge position detecting method and a second measuring method. The remaining claims are allowable because of their dependencies.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
